Reply to a Notice of Violation

Dear Sir or Madam:

This letter serves as a written statement to explain the one violation of NRC requirements identified during the inspection of our facility at the address given above on August 14, 2017:

1. The reason for the violation

Amendments were not submitted in time. Corporate ownership changes occurred before written consent from NRC. Amendments were submitted after the ownership changes.

2. The corrective steps that have been taken and the results achieved

The Notice of Violation has been posted. Company policy has been updated to emphasize that the NRC's written consent must be obtained before any ownership changes.

3. The corrective steps that will be taken to avoid further violations

For any future ownership changes, NRC will be notified as soon as possible. NRC's written consent must be received by company before the ownership change is finalized.

4. The date when full compliance will be achieved

As there are no pending ownership changes, and the above corrective steps have already been implemented, full compliance has been achieved as of the date of this letter, October 12, 2017.

Thank you for your assistance in improving the quality and safety of our radioactive materials program, and please know that we sincerely appreciate the professional and expert manner in which your team conducted these inspection activities. I can assure you that all of us involved in the Radiation Safety Program at our facility take inspection results very seriously and constantly strive to improve our radiation safety practices and performance.

Please feel free to contact me if I can be of any further assistance to you in this or any other matter.

Sincerely,

A handwritten signature in black ink that reads "Zemei Liu".
