SUBJECT: NRC INSPECTION REPORT 50-528/95-11, 50-529/95-11, 50-530/95-11 AND
NOTICE OF VIOLATION

This refers to the inspection conducted by Mr. A. B. Earnest of this office on May 15-19, 1995. The inspection included a review of activities authorized for your Palo Verde Nuclear Generating Station, Units 1, 2, and 3. At the conclusion of the inspection, the findings were discussed with you and those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements.

Based on the results of this inspection, one of your activities appeared to be in violation of NRC requirements as specified in the enclosed Notice of Violation (NOTICE). The violation is of concern because it involved repeated failures to ensure that background investigation and screening requirements were completed prior to granting unescorted site access and demonstrated that your corrective actions have not been effective. Accordingly, we do not consider that these licensee-identified violations meet the criteria of the Enforcement Policy 10 CFR Part 2, Appendix C, Part VII.B(2) for a noncited violation.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

The responses directed by this letter and the enclosed Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96.511.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material will not be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Samuel J. Collins, Director
Division of Radiation Safety
and Safeguards
