Subject: Depleted Uranium

Discussion: Discussed with Ms. Nimmo, the RSO for Varian, the status of the DU records for Mayaguez Medical Center. She stated that the intact LINAC head was received at Legacy and she would provide shipping documentation to support. She also indicated that Legacy was remembering a separate PR shipment for the loose components received and that she would attempt to locate the licensee (if licensed DU) responsible for this shipment and submit that information under separate docket. Documentation was received 11/6/17 from the Mayaguez RSO, Carmelo Perez. This completes this documentation.

Action Required: file and issue amendment removing DU
