NOTICE OF VIOLATION

American Electric
Service Corp.

Docket No. 50-315; 50-316

Based on the inspection conducted on November 19-21, 1979, it appears that certain of your activities were in noncompliance with NRC requirements, as noted below. The item is an infraction.

10 CFR 71.51(a) requires that a licensee "...shall establish, maintain and execute a quality assurance program satisfying each of the applicable criteria specified in Appendix E, 'Quality Assurance Criteria for Shipping Packages for Radioactive Material'..." It further requires that "The description of the quality assurance program shall include a discussion of which requirements of Appendix E are applicable and how they will be satisfied," and that "A description of that program shall be filed, in accordance with this section, by January 1, 1979, with the Director, Office of Nuclear Material Safety and Safeguards, Nuclear Regulatory Commission, Washington, D.C. 20555."

Contrary to the above, no quality assurance program for shipping packages was in effect and no description of such a program had been filed with the Director, NMSS.
