**SUBJECT: RESPONSE TO NRC INSPECTION REPORT 030-35793/2017-001 AND
NOTICE OF VIOLATION**

Dear Mr. Smith:

On October 1, 2017, the U.S. Nuclear Regulatory Commission (NRC) cited Warrior Energy Services for one violation of NRC requirements. The violation involved the failure to periodically review the Warrior Energy Services radiation protection program content and implementation. The Notice of Violation, enclosed with NRC Inspection Report 030-35793/2017-001 (ML17263B226), required you to respond in writing within 30 days. You responded by letter received on October 18, 2017 (ML17299A122).

After reviewing the information provided in your response to the Notice of Violation, we have concluded that the completed and proposed corrective actions appear to adequately address the regulatory noncompliance described in the Notice of Violation. We will review the implementation of these corrective actions during a future inspection to determine whether full compliance has been restored and whether compliance will be maintained.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/

Michael C. Hay, Chief
Materials Licensing and Inspection Branch
Division of Nuclear Materials Safety
