EQUIPMENT REQUEST FOR ADDITIONAL INFORMATION

We have completed a preliminary review of your response to our Safety Evaluation concerning the Environmental Qualification (EQ) of Safety-Related Electrical Equipment. Our contractor (Franklin Research Center) has identified information, in most cases references from your submittals, which we need in order to complete our review. This information should all be contained in your EQ central file. For this purpose, the requested information can be taken from your EQ central file and provided to our contractor. Upon completion of the review the information will be returned to you for replacement into the EQ central file.

We request that you supply this information within 30 days of the date of this letter. Please send a full submittal to Franklin Research Center (address in Enclosure) and only the cover letter to us. Address the letter to S. Varga, Chief Operating Reactors Branch #1. Please contact your Project Manager for further assistance in this regard.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.
