REPORTING SAFETY AND RELIEF VALVE FAILURES AND CHALLENGES

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Denton:

This letter is in response to Mr. S. A. Varga's letter dated April 20, 1982 in reference to the reporting requirements of Safety and Relief Valve Failures/Challenges as per Item II:K:3.3 of NUREG-0737. In our letter No. AEP:NRC:0419 dated June 20, 1980 we noted that the Safety/Relief Valve failures will be reported to the NRC within 30 days. However, in response to Mr. Varga's letter we are revising the reporting requirements, based on our Technical Specification 6.9.1.8., as follows:

- a) All Pressurizer Safety and Relief Valve failures to close which occur at the Donald C. Cook Plant after April 1, 1980 will be reported within 24 hours by telephone and confirmed by telegraph, mailgram or facsimile transmission to the Director of the Regional Office or his designate, no later than the first working day following the event, with a written followup report within 14 days.
- b) All Safety and Relief Valve Challenges which occur after April 1, 1980 will be reported in the Cook Plant Annual Operating Report.
