Docket Nos. 50-315 and 50-316  
License Nos. DPR-58 and DPR-74  
INSERVICE TESTING OF SAFETY RELATED PUMPS

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Denton:

The Attachments to this letter contain a revised Inservice Test (IST) program for safety-related pumps at the Donald C. Cook Nuclear Plant Unit Nos. 1 and 2. Since the IST program requirements for pumps are the same for both Units, and the programs differ only in their effective starting dates, a combined program has been developed.

It is our intention to submit an IST - related Technical Specification change request packet under separate cover to reflect the changes contained in this submittal and to enhance the uniformity of the Technical Specifications for Unit Nos. 1 and 2.

This document has been prepared following Corporate Procedures which incorporate a reasonable set of controls to ensure its accuracy and completeness prior to signature by the undersigned.

Very truly yours,

R. S. Hunter  
Vice President
