Gentlemen:

This confirms our plans as discussed on September 9, 1983, between Mr. M. P. Alexich of your staff and Mr. D. C. Boyd of this office to conduct an Enforcement Conference with you and members of your staff at 1:00 p.m. (EDT) on October 13, 1983, at the Donald C. Cook Nuclear Plant in Bridgman, Michigan. This Enforcement Conference concerns the circumstances surrounding the inoperability of the Unit 1 AB diesel generator fuel oil transfer system. Following the Enforcement Conference, a Management Meeting will be held to discuss the status of your Regulatory Performance Improvement Program.

We will gladly discuss any questions you may have concerning this matter.

Sincerely,
