Mr. John Dolan, Vice President  
Indiana and Michigan Electric Company  
c/o American Electric Power Service Corporation  
1 Riverside Plaza  
Columbus, Ohio 43216

Dear Mr. Dolan:

In the review of the Exxon reports which also support your request for a reload review for the Donald C. Cook Nuclear Plant, Unit No. 2, our contractor, Argonne National Laboratory, has developed a set of questions which we are forwarding to you. This is a preliminary set of questions and it is expected that a formal set from NRR will follow in the near future. There preliminary questions are being made available that you may be prepared for the meeting we have scheduled on March 29, 1984 here in Bethesda. The purpose of that meeting will be to assure that those concerned in the review and reload preparation will understand the questions. We do not expect answers at that time but would appreciate those that might be available.

If you have any question in this matter, please let me know.
