Subject: Calvert Cliffs Nuclear Power Plant
Unit No. 1; Docket No. 50-317
Three-Year Containment Surveillance Report

Reference 1: Letter from A. E. Lundvall, Jr. to R. A. Clark (NRC), dated
September 21, 1982, Containment Structure Surveillance

Reference 2: Letter from A. E. Lundvall, Jr. to R. A. Clark (NRC), dated
November 10, 1982, Three-Year Containment Surveillance
Report

Gentlemen:

On December 22, 1982 a meeting was held between NRC staff members, BG&E and Bechtel at the Bechtel Gaithersburg office for the purpose of allowing the NRC the opportunity to review calculations pertinent to the design of the Calvert Cliffs containment. During this meeting a member of the NRC staff (Mr. Norm Romney) requested that we send him a copy of the report documenting the concrete test results. In response to this request, we have attached a copy of this report for your information and use. Please note that a companion report was incorrectly referenced in our response to your Question 1 (see Reference 2 above). The attached report should have been referenced as it was in Reference 1.

Very truly yours,

AEL/BSM/gvg
