---

Mr. Anton,

Thank you for letting us know your availability. The location of the public meeting would be at NRC headquarters in Rockville, MD.

Regards,  
Richard Chang

**Subject:** [External\_Sender] Re: 10 CFR 2.206 Petition regarding Tetra Tech EC

Mr. Chang and Mr. Smith:

Please be advised that we do intend to appear in person. It appears from our correspondence that you will be working on arranging a meeting date. This is to give you an early alert on dates that we currently know would not work on our end.  
August 9 through 16  
September 18 through October 13th  
November 13th through 17th

Please confirm the location of the formal public meeting of the NRC Headquarters. We currently assume it would be White Flint, Rockville, MD.

Thank you.

David Anton

Mr. Chang,

Thank you for your email.

A major consideration in deciding whether to appear in person or by phone is timing. Might you be able to tell us when a formal public meeting would take place if we elected to appear

in person?

Any guidance you could offer about timing would be greatly appreciated.

Thank you for your assistance.

**Subject:** 10 CFR 2.206 Petition regarding Tetra Tech EC

Dear Mr. David Anton and Mr. Steve Castleman:

James Smith has been assigned as the Petition Manager (and I am acting for him while he is on vacation) for the Section 2.206 of Title 10 of the Code of Federal Regulations (10 CFR 2.206) petition you submitted to the NRC on June 29, 2017, requesting that the NRC revoke Materials License No. 29-31396-01, granted by the Nuclear Regulatory Commission to Tetra Tech EC, Inc.

10 CFR 2.206 describes the petition process—the primary mechanism for the public to request enforcement action by NRC in a public process. This process permits anyone to petition NRC to take enforcement action related to NRC licensees or licensed activities. Depending on the results of its evaluation, NRC could modify, suspend, or revoke an NRC-issued license or take any other appropriate enforcement action to resolve a problem. The NRC staff's guidance for the disposition of 2.206 petition requests is in NRC Management Directive (MD) 8.11, "Review Process for 10 CFR 2.206 Petitions," which is publically available through a link at <https://www.nrc.gov/about-nrc/regulatory/enforcement/petition.html> or under ADAMS Accession No. ML041770328. The 2.206 process is separate from the allegations process which affords individuals who raise safety concerns a degree of protection of their identity.

Under MD 8.11 you have the opportunity to address the Petition Review Board, either in person at NRC headquarters in Rockville, MD, or by telephone conference before it meets to discuss your petition. I would appreciate if you could advise me by July 24<sup>th</sup>, if you would like to address the Petition Review Board. If you would like to meet in person, I will need to schedule a formal public meeting at the NRC

Headquarters. If you would prefer to address the Petition Review Board via phone, I will also work with you to coordinate a date/time during the upcoming weeks.

Thank you,  
Richard Chang
