Re: Final Status Survey Plan for Release of Former Land Application Areas submitted
by Homestake Mining Company of California for the Grants, NM facility

Dear Sir or Madam:

Enclosed please find Homestake Mining Company's proposed Final Status Survey Plan for Release of Former Land Application Areas, Grants Reclamation Project, Cibola County, New Mexico. It is Homestake's intent, barring any comments from NRC, to initiate the field work for this survey in December, 2017 to demonstrate that the former land application areas do not have concentrations of constituents of potential concern that exceed the proposed soil criteria. This final status survey will augment the existing soil data within the Land Application Impact Assessment report submitted to the NRC on September 25, 2017 as per Condition 14 of the Confirmatory Order.

If you or anyone on your staff has any questions or comments, please contact Thomas Wohlford at the Grants office at 505.287.4456, extension 34, or directly on his cell phone at 505.290.2187.

Sincerely,

Gerald F. George
Counsel for Homestake Mining Company of California
