Mr. John Dolan, Vice President
Indiana and Michigan Electric Company
c/o American Electric Power Service Corporation
1 Riverside Plaza
Columbus, Ohio 43216

Dear Mr. Dolan:

In response to a request from the NRC's Region III Office, we have performed a review of the Technical Specification surviellance requirements for the Donald C. Cook Nuclear Plant containment spray additive system. We find that the current Technical Specification is inadequate and should be revised. A Safety Evaluation is enclosed which provides an acceptable way to establish a new Technical Specification and surveillance requirement for the spray additive system. It is requested that you provide revised Technical Specifications as may be appropriate for your plant.

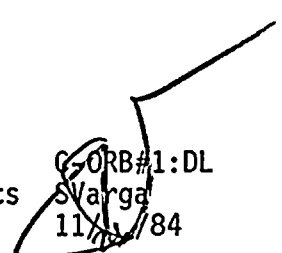

If you have any questions on this matter, please let us know. You should provide a schedule within 30 days for your submittal.

Sincerely,

/s/SAVarga

Steven A. Varga, Chief

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for ensuring the integrity of the financial statements and for providing a clear audit trail. The text also mentions that proper record-keeping is a key requirement for compliance with various accounting standards and regulations.

2. The second part of the document focuses on the role of the accounting department in providing timely and reliable information to management. It highlights that the accounting team should work closely with other departments to ensure that all financial data is captured and processed accurately. The text also discusses the importance of regular communication and reporting to keep management informed of the company's financial performance and any potential risks or opportunities.

3. The third part of the document addresses the need for continuous improvement in accounting practices. It suggests that the accounting department should regularly review its processes and procedures to identify areas for optimization. This could involve adopting new technologies, such as cloud-based accounting software, or implementing more efficient workflows. The text also emphasizes the importance of staying up-to-date with the latest accounting standards and regulations to ensure compliance.

4. The fourth part of the document discusses the importance of maintaining a strong relationship with external stakeholders, such as auditors and tax authorities. It suggests that the accounting department should proactively engage with these parties to ensure that all requirements are met and that any potential issues are resolved in a timely and transparent manner. The text also mentions that clear communication and documentation are key to building trust and maintaining a positive relationship with these stakeholders.

5. The fifth and final part of the document concludes by reiterating the importance of a strong accounting function for the overall success of the organization. It emphasizes that accurate financial information is essential for informed decision-making and for ensuring the long-term sustainability of the business. The text also encourages the accounting department to continue to strive for excellence and to embrace a culture of continuous learning and improvement.
