GENERIC LETTER 85-07-IMPLEMENTATION OF INTEGRATED
LIVING SCHEDULES FOR PLANT MODIFICATIONS

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 2055

Dear Mr. Denton:

This letter is in response to Generic Letter (GL) 85-07, dated May 2, 1985, on implementation of Integrated Living Schedules (ILS). On the GL 85-07 Response Format, Attachment 1 to this letter, we have marked item I.D.--"Plan to implement an informal ILS only."

Although we do maintain schedules to implement regulatory requirements, the concept of an integrated living schedule would imply a formalized schedule commitment with formal licensing action required to change the schedular commitment. We find this to be unnecessary, at this time and in fact will be an additional burden on our manpower and resources.

Our decision in this matter is predicated on the current excellent communications with your staff, and the fact that when schedular difficulties arise, we are able to discuss this issue and settle upon schedules which are satisfactory to both yourselves and us. We consider this current process to be what we refer to as "an informal Integrated Living Schedule," and is a process we would like to continue.

Our plant modification schedule currently extends to about two years. As we near completion of some of the major modifications caused by TMI, Salem ATWS, etc. we plan to further extend our plant modification schedule. After we are in the longer range modification scheduling arena we will certainly entertain the more formal ILS approach.
