Dear Mr. Dolan:

SUBJECT: DRAFT TECHNICAL EVALUATION REPORT (TER) FOR SALEM ATWS ITEM 1.2,
GENERIC LETTER 83-28

The staff has completed a preliminary review to assess the completeness and adequacy of licensee responses to Generic Letter 83-28, Item 1.2. For the Donald C. Cook Nuclear Plant, Unit Nos. 1 and 2, your response was found to be incomplete in 3 of the areas evaluated.

The enclosed TER provides a technical evaluation representing the staff's initial judgment of the areas evaluated. Pen and ink changes have been made to the TER by your project manager to make the wording consistent with our approach.

In order to preserve our present review schedule, we would appreciate your cooperation in obtaining additional information that will permit us to complete our review. It would appear that the needed information on your facility could be obtained by telephone conference within one week of your receipt of the draft TER. Your project manager will be working with you to arrange an acceptable time to conduct the necessary conference calls.

Sincerely,

/s/SVarga

Steven A. Varga, Chief
Operating Reactors Branch #1
Division of Licensing
