U. S. Nuclear Regulatory Commission  
Materials Licensing Section  
2443 Warrenville Road, Suite 210  
Lisle, IL 60532-4352

Dear Sir or Madam:

Franciscan Health - Lafayette East (Byproduct Materials license number 13-09788-01) would like to add Gary Malnar, D.O. as an authorized user of 35.100, 35.200, and 35.300 (limited to oral administrations of sodium iodide I-131 in quantities less than or equal to 33 mCis) materials. Dr. Malnar is currently listed on the license of Franciscan St. Anthony Health - Crown Point (Byproduct Materials license number 13-15933-01) for the same materials use. A copy of the license is enclosed.

If there are any questions concerning this amendment request, please contact our nuclear medicine physicist, Bryce A. Caudle, at 317-443-9035 or by email at [bcaudle@mpcphysics.com](mailto:bcaudle@mpcphysics.com).

Sincerely,

James Siemers, VP & COO  
Executive Management

**MATERIALS LICENSE**

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 37, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Amendment No. 32

I. Any byproduct material permitted by 10 CFR 31.11

I. Prepackaged Kits

I. 2 millicuries.

9. Authorized use:

- A. Any uptake, dilution and excretion study permitted by 10 CFR 35.100.
- B. Any imaging and localization study permitted by 10 CFR 35.200.
- C. Any diagnostic study or therapy procedure permitted by 10 CFR 35.300.
- D. through G. Any manual brachytherapy procedure permitted by 10 CFR 35.400.
- H. For storage only incident to disposal.
- I. In vitro studies.

CONDITIONS

- 10. Licensed material may be used or stored only at the licensee's facilities located at St. Anthony Medical Center, Inc., 1201 South Main Street, Crown Point, Indiana.
- 11. The Radiation Safety Officer for this license is Frank Godlewski, M.S.
- 12. Licensed material is only authorized for use by, or under the supervision of:
  - A. Individuals permitted to work as an authorized user, authorized nuclear pharmacist, and/or authorized medical physicist in accordance with 10 CFR 35.13 and 35.14.
  - B. The following individuals are authorized users for medical use as indicated:

Authorized Users

Material and Use

H. S. Kim, M.D.	10 CFR 35.100, 35.200, and 31.11.
Abdul W. Khan, M.D.	10 CFR 35.400.
Mir J. Shah, M.D.	10 CFR 35.400.
Geetha Narasimhan, M.D.	10 CFR 35.300 and 35.400.
Mohammed A. Abbas, M.D.	10 CFR 35.100, 35.200, and 31.11.

APR 15 2016

Michael F. Busch, M.D.  
Radiation Safety Officer  
Franciscan St. Elizabeth Health Lafayette  
Nuclear Medicine Department  
1701 S. Creasy Lane  
Lafayette, IN 47905

Dear Dr. Busch:

Enclosed is Amendment No. 67 to your NRC Material License No. 13-09788-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

In addition, the NRC staff has reviewed your final status surveys provided in NRC Form 314 'Certificate of Disposition' dated January 11, 2016, request to terminate NRC License Number 13-26527-01. Based on its review, the staff has concluded that residual radioactive material attributable to licensed activities does not exceed current NRC criteria. Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. This facility has been added to NRC license number 13-09788-01 and NRC license number 13-26527-01 is hereby terminated.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

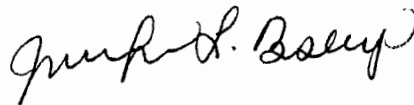

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

M. F. Busch, M.D.

-2-

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Jennifer L. Bishop
