

Docket Nos.: 50-315
and 50-316

6 JAN 1987

Mr. John Dolan, Vice President
Indiana and Michigan Electric Company
c/o American Electric Power Service Corporation
1 Riverside Plaza
Columbus, Ohio 43216

Dear Mr. Dolan:

By letter dated December 8, 1986, the Indiana and Michigan Electric Company submitted a proposed license amendment to reflect the changing of one radioactive effluent monitor with another. The IMEC submittal references an inspection report and mentions an IMEC response. However, there are no details provided in the proposal on why the monitor is being changed, what enhancements are expected with the new monitor, or how the new monitor will meet the requirements at its location. The significant hazards consideration is on the basis that the change is purely administrative. We doubt the details of the change will support such a finding.

On the basis of the above and to allow IMEC to formally submit a complete proposal, we are denying the proposal as submitted December 8, 1986. If you have any questions on this matter, please let us know.

Sincerely,

151
B. J. Youngblood, Director
PWR Project Directorate #4
Division of PWR Licensing-A
