Dear Mr. Zugger:

RE: Donald C. Cook Nuclear Plant NPDES Permit No. MI0005827 Outfall 00D

This letter confirms our September 2, 1987 telephone notification of a spill from the Donald C. Cook Plant. The notification made to your Plainwell office followed a spill from the turbine room sump, outfall 00D, which occurred on September 1, 1987, 0845 hours to 0915 hours. An estimated 9000 gallons of water from the sump overflowed to Lake Michigan. A grab sample indicated a pH of 6.57 and no trace of oil and grease.

indiana Michigan Power

The spill occurred due to repairs being made to the high level alarm at the time of the overflow.

By copy of this letter, the Nuclear Regulatory Commission is notified pursuant to the requirements of Appendix B, Part II, Nonradiological Environmental Protection Plan, Section 3.2.

Very truly yours,

Luchard C. men

Richard C. Menge Vice President
