

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

November 20, 2017

Mr. Robin DeLaBarre  
Office of Nuclear Energy, Safety  
& Security, Room 3320 HST  
Bureau of International Security  
& Nonproliferation  
U.S. Department of State  
2201 C Street, NW  
Washington, DC 20520

Dear Mr. DeLaBarre:

Enclosed is an application from Global Nuclear Fuel - Americas L.L.C., dated November 8, 2017, requesting amendment No. 05 to its existing export license (XSNM3135/04). The license presently authorizes the export of low-enriched uranium (LEU) to Kazakhstan for conversion into uranium dioxide powder form at the Ulba Metallurgical Plant, and then its return to the United States for fabrication as fuel in commercial nuclear power stations.

The purpose of the amendment is to extend the expiration date from December 31, 2017 to December 31, 2022, and change the licensee point of contact.

Since there are no changes to the terms and conditions of the existing license being requested, our office is processing this as a minor amendment. We intend to issue the requested license after the 30-day time period allotted for public review has expired, and it is determined that applicable export license criteria are met.

Sincerely,

A handwritten signature in cursive script that reads "Peter J. Habighorst for".

Peter J. Habighorst, Chief  
Export Controls and Nonproliferation Branch  
Office of International Programs
