Dear Mr. Williams:

Enclosed is a copy of the proposed legally binding license condition reviewed by NRC letter dated November 13, 2017, with two comments. The Radiation Control Bureau has made the corrections based on the NRC comments. The legally binding requirements correspond to the following equivalent amendments to NRC's regulations.

| <u>Rats ID</u> | <u>Title</u>  | <u>State Section</u> |
|----------------|---|----------------------|
| 2015-2         | Safeguards Information-Modified<br>Handling Categorization, Change for Material Facilities<br>10 CFR Parts 30, 37, 73, and 150<br>79 FR 58664 | Approved license     |

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200.

If you have any questions, please feel free to contact Michael Ortiz at 505-476-8605 or E-MAIL [michael.ortiz1@state.nm.us](mailto:michael.ortiz1@state.nm.us).

Sincerely,

Santiago Rodriguez, Bureau Chief  
 Radiation Control Bureau
