November 8, 2017

September Myres, CEO
Sundance Consulting, Inc.
305 North 3rd Avenue, Suite B
Pocatello, Idaho 83201

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 11-35272-01

By document dated June 28, 2017, you informed the U.S. Nuclear Regulatory Commission (NRC) that Sundance Consulting, Inc. wished to terminate the NRC radioactive materials license. The letter dated June 28, 2017, stated that no sources were possessed or used under license. Inspection conducted November 16, 2017 confirmed that no sources had been received and/or possessed under the license or in exclusive federal jurisdiction.

Based on the documentation submitted and a review of your historical file, the staff concluded that no licensable radioactive material was possessed at the facility and the facility located at 305 North 3rd Avenue, Suite B, Pocatello, Idaho is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 2 to License No. 11-35272-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(iii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1127 if you have questions or require clarification on any of the information stated above.

Sincerely,

/RA/

Michelle M. Hammond, M.Sc., Health Physicist
Materials Licensing and Inspection Branch
