Donald C. Cook Nuclear Plant Unit No. 2
Docket No. 50-316
License No. DPR-74
PLANT TRANSIENT ANALYSES

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

Please be advised that Mr. J.C. Chandler of Exxon Nuclear Company (ENC) will have transmitted to Dr. Cecil O. Thomas of your staff by separate cover (ENC letters JCC:119:84, dated August 29, 1984, and JCC:121:84, dated August 31, 1984) the following reports:

1. PTSPWR2 Code Modification Report (XN-74-5 (P), Revision 2 Supplement 4)
2. PTSPWR2 Benchmarking Report (XN-74-5 (P) Revision 2, Supplement 5)
3. Generic Methodology and Applications Document (XN-NF-84-73 (P))

As per discussions with your staff, we believe that submission of these reports by ENC satisfies the Cycle 5 SER requirement that "... Indiana & Michigan Electric Company provide the necessary information needed for the staff to complete its review of PTSPWR2 by September 1, 1984..."

Since comments from the NRC staff had to be incorporated in the final version, we will not have the opportunity to review the formal reports (Items 2 and 3) prior to ENC's transmittal of the reports to you. Nevertheless, our staff has been in constant communication with ENC and are in general concurrence with the information contained in them. Once we receive the final version, we will again review the reports (Items 2 & 3). Any comments generated as a result of this review will be transmitted to ENC, and items affecting the Donald C. Cook Nuclear Plant will be resolved in conjunction with the development of the four-loop methodology.

1/0

It should be noted that the Methodology and Applications Report addresses a three-loop plant. This was discussed with your staff with the understanding that ENC will initiate preparation of Appendix C four-loop methodology once formal comments from the NRC staff are received on the three-loop methodology. This subject was addressed in our letter AEP:NRC:0860R, dated August 20, 1984.

This document has been prepared following Corporate procedures which incorporate a reasonable set of controls to insure its accuracy and completeness prior to signature by the undersigned.

Very truly yours,

M.P. Alexich *ML* 8/30/84
Vice President

11

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for ensuring the integrity of the financial system and for providing a clear audit trail.

2. The second part of the document outlines the specific procedures that must be followed when recording transactions. It details the steps from initial entry to final review and approval.

3. The third part of the document provides a summary of the key points discussed and offers recommendations for improving the recording process.
