REQUEST FOR EXTENSION ON NRC BULLETIN NO. 88-10
ACTION ITEMS AND REPORTING REQUIREMENTS

U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D.C. 20555

Attn: T. E. Murley

April 3, 1989

Dear Dr. Murley:

The purpose of this letter is to request an extension for performing the action items and providing the written reports specified by NRC Bulletin No. 88-10. This request is necessary since recent information is causing us to reevaluate the acceptability of the documentation used to verify the traceability of molded-case circuit breakers being maintained as stored spares for future use in safety-related applications. We are continuing our evaluation and propose to provide a response to the bulletin by May 16, 1989.

This document has been prepared following corporate procedures which incorporate a reasonable set of controls to ensure its accuracy and completeness prior to signature by the undersigned.

Sincerely,

M. P. Alexich
Vice President
