**RE: Materials License Renewal
Peabody Midwest Mining LLC – Somerville & Francisco Mine Analyzer
License # 13-26785-01**

Ms. Cender:

Please consider this correspondence as confirmation of the physical locations of licensed materials under NRC License # 13-26785-01, as per your request for information on 11/09/17.

**Francisco Preparation Plant
County Road 850 East
Francisco, IN 47649**

and

**Somerville Central Preparation Plant
6280 S County Road 1025 East
Oakland City, IN 47660**

Note: The Somerville Central Prep address has been updated to the above street address from the original licensed Rural Route R. R. #3 Box 155 address. The location of the licensed material and analyzer has not changed from the original installation location.

Our administrative office address is at 566 Dickeyville Rd. Lynnville, IN 47619
Should any additional information be required or questions arise, please contact me at anelson@peabodyenergy.com or 812-922-1045.

Sincerely,

Andrew Nelson
Manager Permitting

Andy,

Thank you for the information. If you could please send that to me with a signature and date that be perfect. If you just want to add that part in to the letter you sent yesterday and resend it that would be fine.

Thanks,
Laura

Laura,

The USPS discontinued the use of Rural Routes some years back with the evolution of the 911 emergency dispatch system.

All properties were assigned an actual street address.

The location of the analyzer (Licensed Material) at the Somerville Prep Plant has remained the same since original installation.

The new address, 6280 South 1025 East, Oakland City, IN 47660, is simply a replacement (more accurate) address for the previous R.R.#3 address.

I am surprised the licenses don't list the GPS coordinates of the source locations. ATF and DHS requires that information for explosives magazines.

Please advise if you need the above confirmation in a letter.

Thank you for your patience and cooperation,
Andy

Andy,

The current license amendment that you possess lists the location of use for the Somerville Plant as Somerville Central Mine, R.R. #3, Box 155, Oakland City, Indiana. The new address that has been provided for the Somerville Plant is 6280 South 1025 East, Oakland City, IN 47660.

I am just wanting to confirm that although the address is different the physical location of the plant is still the same and that the licensed material has not been moved to a new facility.

Thank you,
Laura

Laura,

Q; Is the confusion over the former 7100 Eagle Crest Blvd Evansville, IN Address ?

That was our former administrative office address..

The Somerville Plant "analyzer" location has not changed. Nor has the Francisco Plan analyzer location.

We closed our Evansville Office in Dec. 2015 and moved to 566 Dickeyville Rd. Lynnville, IN address for our administrative offices.

Sorry for all the confusion,
Andy

Andy,

I apologize for any confusion. The address provided for the Somerville Central Preparation Plant is different now from how it was listed on the previous license amendment. Can you please confirm that this is an

administrative change only and that the materials analyzer has not been moved to a new physical location (often addresses will be changed by the county for example).

Please let me know if you have any questions.

Thank you,
Laura

Laura,

Please accept my apologies for delay in response to your request for confirmation of site locations for the licensed materials.

Attached is follow up correspondence confirming the physical location / addresses for the materials under License No. 13-26785-01.

Thank You,
Andy

Hello Andy,

Just a friendly reminder to please send me a short letter confirming the addresses of the locations where licensed material will be stored. This letter can be signed by you and sent to me as a pdf via email.

Please feel free to contact me via email or at 217-493-0429 (cell) if you have any questions.

Thank you,
Laura Cender

Andy,

I do have one last concern. On your previous license amendment the facility addresses were listed as Francisco Mine, County Road 850 East, Francisco, Indiana and Somerville Central Mine, R.R. #3, Box 155, Oakland City, Indiana.

The information provided lists the facility addresses as Francisco Prep Plant, County Road 725 East, Francisco, Indiana and Somerville Central Prep Plant 6280 South 1025 East, Oakland City, IN 47660.

Can you please provide a short (1-2) sentence statement confirming that these address changes are administrative only and are not the result of licensed material being moved to a new location. This statement can be signed by you as it is not a legally binding commitment to your license.

Please reach out to me at 630-829-9712 if you have any questions.

Thank you,
Laura Cender
