

Docket No. 50-315
Docket No. 50-316

JAN - 4 1990
1990
1989

Indiana Michigan Power Company
ATTN: Mr. Milton P. Alexich
Vice President
Nuclear Operations Division
1 Riverside Plaza
Columbus, OH 43216

Gentlemen:

SUBJECT: REQUALIFICATION EXAMINATION REPORT

During the week of December 11, 1989, the NRC administered requalification examinations to employees of your organization who operate your D. C. Cook Nuclear Plant. At the conclusion of the examination, any generic findings that evolved as a result of the examinations were discussed with those members of your staff identified in the enclosed report.

As a result of this evaluation of your requalification program it has been assigned an overall program rating of satisfactory in accordance with the criteria of NUREG-1021, ES 601. For those individuals with unsatisfactory results, the facility should take corrective action as required by its approved requalification program.

You should note that because of the early developmental stage of the requalification examination materials, they were deemed acceptable for purposes of this examination but may not be considered acceptable for future examinations. You should continue your efforts to expand and upgrade your examination bank materials.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this examination, please contact us.

Sincerely,

ORIGINAL SIGNED BY GEOFFREY C. WRIGHT

Geoffrey C. Wright, Chief
Operations Branch
