Gentlemen:

We are forwarding the enclosed Federal Emergency Management Agency (FEMA) letter and associated exercise report for the April 3, 1990, exercise at the D. C. Cook Nuclear Power Station. This was a partial-participation exercise for the State of Michigan and a full-participation exercise for Berrien County.

FEMA identified no deficiencies or Areas Requiring Corrective Action in the performance of offsite agencies during the exercise. Based on its review of the exercise, FEMA concluded that offsite radiological emergency preparedness is adequate to provide reasonable assurance that appropriate offsite measures can be taken to protect the health and safety of the public living in the vicinity of the D. C. Cook Nuclear Power Station.

Sincerely,
