

July 7, 1992

Docket Nos. 50-315  
and 50-316

Mr. E. E. Fitzpatrick, Vice President  
Indiana Michigan Power Company  
c/o American Electric Power Service Corporation  
1 Riverside Plaza  
Columbus, Ohio 43216

Dear Mr. Fitzpatrick:

SUBJECT: DONALD C. COOK NUCLEAR PLANT, UNITS 1 AND 2 - WITHDRAWAL OF  
AMENDMENT REQUESTS TO FACILITY OPERATING LICENSE NOS. DPR-58 AND  
DPR-74 (TAC NOS. M74200 AND M74201)

By letter dated June 29, 1989, you submitted amendment requests to revise the Units 1 and 2 Technical Specifications related to the control room emergency ventilation system and its associated Bases Sections. The NRC staff reviewed the application and found a number of concerns with it. Subsequently, the NRC staff expressed these concerns to your licensing staff during a telephone conference call. Based on this discussion, your staff verbally withdrew your June 29, 1989, application. Further, you informed the NRC that you would be revising your analysis concerning the control room emergency ventilation system and would propose new TS to reflect your new analysis. Therefore, your proposed change is considered to be withdrawn. If this information is not correct, please notify the NRC of your intended actions within 10 days of receipt of this letter.

We have prepared a proposed Notice of Withdrawal of Application for Amendment to Facility Operating Licenses. Unless you notify us that we are incorrect within 10 days of receipt of this letter, we will file the notice with the Office of the Federal Register for publication.

Sincerely,

Original signed by William O. Long FOR
