

September 6, 1992

Docket Nos. 50-315  
and 50-316

Mr. E. E. Fitzpatrick, Vice President  
Indiana Michigan Power Company  
c/o American Electric Power Service Corporation  
1 Riverside Plaza  
Columbus, Ohio 43216

Dear Mr. Fitzpatrick:

SUBJECT: RESPONSE TO GENERIC LETTER 91-13, "REQUEST FOR INFORMATION RELATED TO THE RESOLUTION OF GENERIC ISSUE 130, 'ESSENTIAL SERVICE WATER SYSTEM FAILURES AT MULTI-UNIT SITES,' PURSUANT TO 10 CFR 50.54 (F)" (TAC NOS. M81175 AND M81176)

On September 16, 1991, the NRC issued Generic Letter (GL) 91-13 which contained the staff resolution of Generic Issue 130. The GL required that the applicable facility review the recommended Technical Specification (TS) and certify procedure improvements discussed in the generic letter and review the applicability and safety significance of these improvements for their facility. Each licensee or applicant was requested to state whether the proposed TS changes are applicable to the facility, and whether they will commit to the improvements.

By letter dated March 13, 1992, you responded to the GL. You indicated that because of plant specific aspects, the technical specification changes and procedural improvements are not required. The staff has reviewed your response and finds that it meets the reporting requirements set forth in GL 91-13. This completes the staff's activities on TAC Nos. M81175 and M81176.

Sincerely,

Original signed by

John F. Stang, Project Manager
