Extension Request (GL 81-10)

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Denton:

This letter serves to request an extension to July 1, 1981 for submittal of the conceptual design description of the Technical Support Center and the Emergency Off-Site Facility as required by NUREG-0737, Item III.A.1.2. This item was addressed in our letter of April 16, 1981 (AEP:NRC:0531) which contained our initial response to Generic Letter No. 81-10. This extension is required since certain design aspects of the Technical Support Center and the Emergency Off-Site Facility have not yet been completed.

Very truly yours,

R. S. Hunter
Vice President
