Southern Nuclear Operating Company  
Vogtle Electric Generating Plant Units 3 and 4  
Nuclear Development Quality Assurance Manual Changes

Ladies and Gentlemen:

This submittal is made with regard to the Vogtle Electric Generating Plant, Units 3 and 4 (VEGP 3&4), license numbers NPF-91 and NPF-92, pursuant to the reporting requirements of 10 CFR 50.55(f)(4)(i).

On September 5, 2017 and October 24, 2017, Southern Nuclear Operating Company (SNC) approved Licensing Document Change Request (LDCR)-2017-107 and LDCR-2017-129, respectively. These LDCRs revise the Nuclear Development Quality Assurance Manual (NDQAM) for VEGP 3&4 to reflect organizational changes, changes in responsibilities, and administrative improvements.

SNC considered the changes to the NDQAM in accordance with its internal procedures and 10 CFR 50.55(f)(4)(i). SNC confirms that, in keeping with 10 CFR 50.55(f)(4)(i), the changes do not reduce the commitments in the program description previously accepted by the NRC.

This letter contains no regulatory commitments. This letter has been reviewed and determined not to contain security-related information.

If there are any questions regarding this letter, please contact Mr. Anthony Parton at (706) 848-6930.

I declare under penalty of perjury that the foregoing is true and correct. Executed on the 28th of November 2017.

Respectfully submitted,

---

B. H. Whitley
