Columbus, OH 43216

Gentlemen:

Thank you for the September 2, 1986, submittal proposing a change to your July 1986 update of the Quality Assurance Program Description (AEP:NRC: 0847J). We have reviewed the submittal and determined that the change represents a reduction to previous commitments regarding review of condition reports. However, we have also determined that the change is an acceptable alternative and your updated Quality Assurance Program Description continues to meet 10 CFR 50, Appendix B.

We appreciate your timely submittal of information responsive to 10 CFR 50.54 (a)(3). Please contact Mr. Frank Jablonski of my staff (312/790-5555) with questions you may have regarding this matter.

Sincerely,

Carl J. Paperiello
Carl J. Paperiello, Director
