Andreas,

Thank you for your response. We will add “Wilmington Nuclear Energy Production Facility” to application XSNM3135/05. A draft license will be emailed to you for review before we issue the license.

Thank you.
Jane

Good day Jane. Thank you for the update and opportunity to clarify. I in fact do want to keep the reference to the Wilmington production facility. GNFA is and located at the same facility.

If this email is good enough, please include otherwise let me know if I need to submit anything more.

Thank you
Andreas

Hello Andreas,

The subject license amendment will be issued within three weeks, if all goes well. I want to confirm that you'd like “Wilmington Nuclear Energy Production Facility” be removed from the current license, XSNM3135/04.

Thank you.
