**Subject: GNF2 Advantage Generic Compliance with NEDE-24011-P-A (GESTAR II),
NEDC-33270P, Revision 9, December 2017**

This letter transmits Revision 9 to the GNF2 Advantage Generic Compliance with NEDE-24011-P-A (GESTAR II). The enclosed Revision 9 of the GNF2 compliance report updates the report to delete an inaccurate statement pertaining to low void conditions and to reflect that TRACG04 has been approved by the NRC and contains limitations that have been addressed by the method. In addition, a minor editorial correction was made to Figure 3-33. A revision summary is included in the report.

Please note that Enclosure 1 contains proprietary information of the type that Global Nuclear Fuel – Americas (GNF-A) maintains in confidence and withholds from public disclosure. The information has been handled and classified as proprietary to GNF-A as indicated in its affidavit, which is also included in the report. The affidavit contained in Enclosure 3 identifies that the information contained in Enclosure 1 has been handled and classified as proprietary to GNF-A. GNF-A hereby requests that the information in Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.

Enclosure 1 is the proprietary version of the GNF2 compliance report and Enclosure 2 is a non-proprietary version. Enclosure 3 contains the affidavit.

If you have any questions about the information provided here, please contact me at (910) 819-6684 or Jim Harrison at (910) 620-1826.

Sincerely,

Brian R. Moore
