> Operating License DPR-58 Docket No. 50-315

Document Control Manager:

In accordance with the criteria established by 10 CFR 50.73 entitled <u>Licensee Event</u> <u>Report System</u>, the following report is being submitted:

LER 315/98-050-00, "Ancillary Equipment Installed in Ice Condenser Not Designed to Withstand Design Basis Accident/Earthquake Loads."

The following commitments were identified in this submittal:

- A design change has been developed to upgrade the supports/restraints for certain large or concentrated areas of electrical equipment located inside the ice condenser. Installation of the design change will be completed prior to plant restart.
- Design criteria have been developed for the ice condenser ancillary equipment. These criteria will be incorporated into the Updated Final Safety Analysis Report.

Sincerely,

J. R. Sampson Site Vice President
