Dear Dr. Xu,

This letter refers to your letter dated October 31, 2017, delivered to me on November 6th, 2017, responding to your labelling requirement request for the distribution of our product as required under section 10 CFR 40.52(b)(4). Enclosed are two labelling options and one printing option which we will be using depending on the size and box type.

We are also planning to change our license name from "Ushio America, Inc." to "Ushio America Holdings, Inc.". For this change, we will follow the consolidated guidelines about Material licenses (NUREG-1556, Volume 15, Revision 1).

Please let me know if any questions.

Rest Regards.
