Miami, Florida 33152

Gentlemen:

This refers to the inspection conducted by Mr. G. T. Gibson of this office on October 18-19, 1978, of activities authorized by NRC License Nos. DPR-31 and DPR-41 for the Turkey Point facility, Units 3 and 4, and to the discussion of our findings held with Mr. H. Yaeger at the conclusion of the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, no items of noncompliance were disclosed.

We have examined actions you have taken with regard to previously reported unresolved items. The status of these items is discussed in the enclosed report.

Two new unresolved items resulted from this inspection and are discussed in the enclosed report. These items will be examined during subsequent inspections. As discussed with Messrs. H. Yaeger and J. Hays on November 3, 1978, we understand that Florida Power and Light is committed to conduct an additional fire drill and an additional on-site emergency exercise on or before March 1, 1979, to test the effectiveness of the measures taken to correct the unresolved items identified.

In accordance with Section 2.790 of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractor) believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reasons on the basis of which it is claimed that the information is proprietary, and should

be prepared so that proprietary information identified in the application is contained in a separate part of the document. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

Jack T. Sutherland, Chief
Fuel Facility and Materials
Safety Branch
