Gentlemen:

This refers to the meeting held at the NRC Region II office on June 6, 1979, at our request. This meeting was related to activities authorized by NRC License Nos. DPR-31 and DPR-41, for the Turkey Point Units 3 and 4 facilities, and was attended by members of the Region II and NRR staff, and representatives of your company.

Our concerns about effectiveness of your operational quality assurance program and management control system were related to you during the meeting. The subjects discussed are included in the enclosed inspection report.

It is our opinion that this meeting was particularly beneficial in that we were able to discuss our concerns regarding your activities, and in turn, you were able to respond directly.

Your positive response to the presentation of our concerns is appreciated and should provide a good foundation for future discussions on regulatory topics.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 20, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room.

No reply to this letter is required; however, should you have any questions concerning these matters, we will be pleased to discuss them with you.

Sincerely,

James P. O'Reilly  
Director
