In the Matter of
 FLORIDA POWER AND LIGHT COMPANY
 (Turkey Point Nuclear Generating Unit Nos. 3 and 4)
 Docket Nos. 50-250 and 50-251
 (Proposed Amendments to Facility Operating
 Licenses to Permit Steam Generator Repair)

Dear Mr. Chonin:

Per our discussion in Miami on January 26, 1981, the Staff would expect that the responses to its separate discovery requests of September 14 and October 4, 1979 in this proceeding will be supplemented, as appropriate, at the earliest possible date. Section 2.740(e) of the Commission's regulations identifies the type of discovery responses (including the identification of witnesses) which require supplementation. Thank you for your attention to this matter.

Sincerely,

Steven C. Goldberg
 Counsel for NRC Staff
