In the Matter of
 FLORIDA POWER AND LIGHT COMPANY
 (Turkey Point Nuclear Generating Unit Nos. 3 and 4)
 Docket Nos. 50-250 and 50-251
 (Proposed Amendments to Facility Operating
 Licenses to Permit Steam Generator Repair)

Dear Members of the Board:

It has just come to my attention that the section references to the updated steam generator repair Safety Evaluation (SE) in paragraphs 3, 5 and 6 on pages 4 and 5 of the February 20, 1981 Staff summary disposition motion were incorrectly cited. The proper citation throughout is to Section 3.2.3 of the SE, a copy of which was attached to the accompanying affidavit of Gregory A. Harrison. The Staff hopes that this error was apparent from the balance of the motion and regrets any inconvenience it may have caused the Board and parties.

Sincerely,

Steven C. Goldberg
 Counsel for NRC Staff

1. The first part of the document
 discusses the general principles
 of the project and the
 objectives that have been
 set for the study. It
 also outlines the scope of
 the work and the methods
 that will be used to
 collect and analyze the
 data.
