Office of Nuclear Reactor Regulation  
Attention: Mr. Steven A. Varga, Chief  
Operating Reactors Branch No. 1  
Division of Operating Reactors  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Varga:

Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
South Dade Meteorological Evaluation

With reference to your South Dade Meteorological Tower Evaluation of March 27, 1981, please be advised that we are improving our method of transmitting signals from the South Dade facility to the Turkey Point site.

Rather than using telephone lines, as originally planned, we have determined that the employment of an RF radio link will be more effective. FCC licenses to transmit from both the South Dade and Turkey Point sites have been received, transmitters are in place, and receivers are currently being installed.

Sincerely,

Robert E. Uhrig  
Vice President  
Advanced Systems and Technology

REU/DAC/gw.
