Dear Sir/Mdm.: (Proposed Amendments to Facility Operating Lic.
to Permit Steam Generator Repairs).

Regarding the Steam Generator Repairs to Turkey Point# 3 & #4
HEARING, I wrote you on AUG.20, 1979 requesting to be a speaker
at the HEARING on the matter.

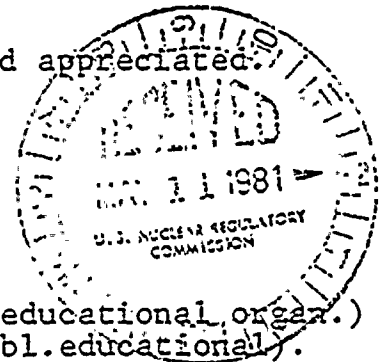

I have attended all the ATOMIC SAFETY & LICENSING BOARD Hearings
to date & I am again writing you to request to be a speaker at
the coming REPAIR HEARINGS which are supposed to take place in
June 1981.

I have a background in multi sciences/engineering & am an
Inventor holding several patents of ALTERNATE ENERGY DEVICES &
lecture in the fields of SOLAR & RENEWABLE ENERGY subjects & it
is my strong belief that FLORIDA POWER & LIGHT CO. does not do
much promoting SOLAR & RENEWABLE ENERGY SOURCES of power & also
omits information on these subjects to the public & in fact,
spreads false inferences & misstatements pertaining to these
energy fields which they view as a threat to their stockholders
profits & not wanting to change to other forms of energy.

Please put me on your speakers list to speak at the coming
STEAM GENERATOR REPAIR HEARING which I believe will take place
at Homestead, Florida, not far from the 2 Turkey Point Nuclear
Plants.

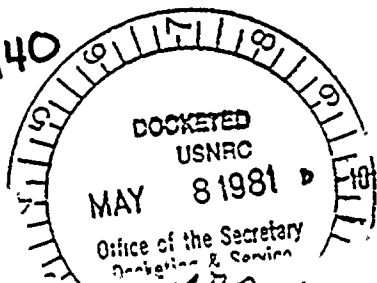

Thank you in advance for your effort which is indeed appreciated.

Sincerely, *Enos L. Schera Jr.*
