

FEMA

NOV 29 2017

Mr. Joe Kelly
Director, Division of Homeland Security
and Emergency Management
445 Minnesota Street Suite 223
Saint Paul, MN 55101

Dear Mr. Kelly:

Enclosed is the Final After Action Report/Improvement Plan for the Monticello Nuclear
Generating Plant Radiological Emergency Preparedness, Partial Participation Plume Exposure
Pathway Exercise conducted on Tuesday, August 29, 2017.

There were no Level 1 or Level 2 Findings, and no Plan Issues, identified for the State of
Minnesota, Sherburne County, or Wright County.

Based on the results of the exercise, the planning and preparedness for the State of Minnesota
and affected local jurisdictions provide reasonable assurance that appropriate measures can be
taken to protect public health and safety. Therefore, Title 44 CFR Part 350 approval of the offsite
radiological emergency response plans and preparedness for the State of Minnesota remain in
effect.

If you have any questions, please contact Sean O'Leary, Chair, Regional Assistance Committee,
at (312) 408-5389.

Sincerely,

 James K. Joseph
Regional Administrator
