Office of Nuclear Reactor Regulation
Attention: Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
Radiological Effluent Technical
Specifications

Florida Power & Light Company submitted proposed changes to the Turkey Point Units 3 & 4 Radiological Effluent Technical Specifications on April 17, 1979 (L-79-92). As discussed with your staff on August 10, 1981, we plan to resubmit the proposed changes in order to include changes in equipment and operating conditions that have occurred in the past two years. The technical specifications are scheduled to be resubmitted by November 30, 1981.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and compares them with the previous studies in the field.

4. The fourth part of the report is a conclusion and a list of references. It summarizes the main findings of the study and provides a list of the sources used in the research.
