Dear Dr. Uhrig:

We are preparing a summary of doses to workers involved in steam generator inspection, maintenance and repair. We would appreciate the dose data on the Turkey Point Plant Unit Nos. 3 and 4 as it pertains to steam generators from 1974 through 1981. Details of the sources would be useful if it is available, i.e. inservice inspection, maintenance, repair, etc. Also, the number of days outage in each case would be helpful. Thank you for your assistance in this matter.

Sincerely,
