Dear Mr. Varga:

Re: Turkey Point Units 3 & 4  
Docket Nos. 50-250 & 50-251  
Adequacy of Station Electrical Distribution Voltages

Florida Power & Light has reviewed the NRC letter dated October 22, 1981 which requested additional information on the adequacy of station electrical distribution system voltage for Turkey Point Units 3 & 4. Because of the heavier than normal engineering workload associated with the outages of our three nuclear units, we will not be able to supply the information by the requested date. We expect to be able to fully respond to your questions by February 15, 1982.

Very truly yours,

Robert E. Uhrig  
Vice President  
Advanced Systems & Technology
