Dear Dr. Uhrig:

**SUBJECT: ENVIRONMENTAL QUALIFICATION OF SAFETY-RELATED ELECTRICAL EQUIPMENT
REQUEST FOR ADDITIONAL INFORMATION**

We have completed a preliminary review of your response to our Safety Evaluation concerning the Environmental Qualification (EQ) of Safety-Related Electrical Equipment. Our contractor (Franklin Research Center) has identified information, in most cases references from your submittals, which we need in order to complete our review. This information should all be contained in your EQ central file. For this purpose, the requested information can be taken from your EQ central file and provided to our contractor. Upon completion of the review the information will be returned to you for replacement into the EQ central file.

We request that you supply this information within 30 days of the date of this letter. Please send a full submittal to Franklin Research Center (address in Enclosure) and only the cover letter to us. Address the letter to S. Varga, Chief, Operating Reactor Branch No. 1. Please contact your Project Manager for further assistance in this regard.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

Original signed by:
S. A. Varga

INSTRUCTIONS FOR TRANSMITTING INFORMATION REQUESTED

1. The schedule for completion of the FRC assignment requires that the Licensee provide the requested information within *30 days* of the date of the RFI.
2. The Licensee may transmit the requested information as follows:

o cover letter to NRC and complete package to FRC.

FRC mailing address is as follows:

Mr. Cyril J. Crane

REQUEST FOR ADDITIONAL INFORMATION

EQUIPMENT ENVIRONMENTAL QUALIFICATION (EEQ)
REVIEW OF LICENSEES' RESOLUTION OF OUTSTANDING ISSUES
FROM NRC EQUIPMENT ENVIRONMENTAL QUALIFICATION SAFETY
EVALUATION REPORTS (SER) AND TMI ACTION PLAN INSTALLED EQUIPMENT

Florida Power and Light Company
Turkey Point Unit 3

NRC Docket No. 50-250

December 11, 1981

NRC TAC No. 42470

Franklin Research Center
A Division of The Franklin Institute

The Benjamin Franklin Parkway, Phila., Pa. 19103 (215) 448-1000

BACKGROUND

Franklin Research Center (FRC) of Philadelphia, Pa. is providing assistance to the U.S. Nuclear Regulatory Commission (NRC) for the equipment environmental qualification (EEQ) review of operating reactors. FRC will perform an EEQ review of the Licensee's 90-day response to outstanding issues from the NRC Equipment Environmental Qualification Safety Evaluation Report (SER) and the installed TMI Action Plan equipment. The review will be limited to safety-related equipment potentially exposed to a harsh environment. The results will be presented in the form of a technical evaluation report for each plant.

This request for additional information (RFI) is the result of an evaluation of the information provided by letters dated June 2, 1980 [1] and August, 1981 [2].* FRC previously requested TMI Action Plan information by a telephone memorandum dated August 14, 1981 [3]. In response to that request, Florida Power and Light Company provided the following information on August 14, 1981:

1. The cable description for the cable listed on SCEW Sheet 13-29:
W-C Cross-linked polyethylene insulation with a neoprene jacket.

A. FRC REVIEW OF THE LICENSEE'S 90-DAY RESPONSE TO THE NRC EEQ SER

Information Requested

Date Received by FRC**

1. In reference to the Licensee's 90-day response [2] to the NRC SER [4], a legible single copy of each of the following qualification documents is requested in order that the FRC evaluation may proceed. The identification of those reports considered to be proprietary is requested so that proper control of documents can be maintained:
 - a. Fischer & Porter Letter 3-6-75 with Ameron Lab Test #1550a dated 3-23-72 (Ref. 8)

*Numbers in brackets refer to citations found in the list of references.

**This column will be completed by FRC as the requested information is received.

Date Received by FRC**
