Dear Dr. Uhrig:

By letter dated December 23, 1981, you requested approval to allow certain contaminated earth to remain in place within the Radiation Controlled area of the Turkey Point Plant. Based on our review, we conclude that the contaminated earth may be retained at its present location within the radiation controlled area of the Turkey Point Plant until the plant is decommissioned. The contaminated earth may not be disturbed prior to that time without NRC approval.

Our evaluation is enclosed.

Sincerely,
