Docket Nos. 50-250  
and 50-251

Dr. Robert E. Uhrig, Vice President  
Advanced Systems and Technology  
Florida Power and Light Company  
Post Office Box 529100  
Miami, Florida 33152

Dear Dr. Uhrig:

RE: Adequacy of Station Electric Distribution System Voltages

The staff has completed its review of your submittals dated November 9, 1979, December 19, 1980, June 10, 1981, February 24, May 20 and November 16, 1982. relating to the above safety concern.

Based on our review, we have concluded that the station electric distribution systems for Turkey Point, Units 3 and 4, are adequate to maintain the voltage within the design limits of the required safety-related equipment for the worst case starting and load conditions.

The enclosed Safety Evaluation and Technical Evaluation Report provide the details of our review.

Sincerely,  
Original signed by:  
S. A. Varga

Small, faint marks and artifacts in the top right corner.

The main body of the page contains extremely faint and illegible text, appearing as scattered black specks and light gray smudges. The text is distributed across the page, with some faint clusters visible in the upper left, center, and lower right areas. The overall appearance is that of a very low-quality scan of a document page.
