Gentlemen:

SUBJECT: NOTICE OF VIOLATION  
(NRC INSPECTION REPORT NOS. 50-250/86-18 AND 50-251/86-18)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by F. R. McCoy on March 23-28 and April 7-11, 1986. The inspection included a review of activities authorized for your Turkey Point facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are described in the enclosed Notice of Violation.

One violation described in the enclosed Inspection Report is under consideration for escalated enforcement action. Accordingly, no Notice of Violation is being issued for that item at this time, and no response for that item is required. However, please be advised that the number and characterization of violations described in the enclosed Inspection Report may change as a result of further NRC review. You will be advised by separate correspondence of the results of our deliberations on this matter.

In accordance with 10 CFR 2.790(a), a copy of this letter, its enclosures, and any reply will be placed in the NRC Public Document Room. If you wish to withhold information contained therein, please notify this office by telephone within ten days of the date of this letter and submit a written application to withhold information contained therein promptly thereafter. Such application must be consistent with the requirement of 10 CFR 2.790(b)(1). If we do not hear from you in this regard within the period specified above, this letter, its enclosures, and any reply will be made available to the public and be placed in the NRC Public Document Room.
